

#### **2016 PRODUCT LINE-UP**

## IT'S NOT A ONE-SIZE-FITS-ALL WORLD

#### When it comes to finding the perfect display, it's all about options.

At Sharp, we continue working hard to expand our Industrial Application (IA) display line-up to provide solutions for the widest possible variety of requirements.

Our IA LCDs range from 3.5-inch to 23.5-inch (diagonal). From stock IA panels to premium out-of-the box parts to our budget-friendly Value IA LCDs, we aim to meet both your specification and budgetary needs.

## **Standard IA**

#### **PICK YOUR PERFECT DISPLAY**

Our stock IA parts offer a range of features and sizes that enable you to develop products that shine in demanding environments. They also provide the perfect building block for enhanced, high-performance solutions.

## Value IA

#### BUDGET-SENSITIVE PROJECT?

Integrate key features of Sharp's Industrial Strength LCDs into your designs with these right-priced panels. Available in many of the most popular diagonal sizes.

## IA + VAP

#### DIAL-IN YOUR PREMIUM SOLUTION

Sharp works with a network of Value-Added Providers to develop enhanced solutions for your product's requirements – all built on Sharp Industrial Application LCDs. Let's talk about your needs for multi-touch PCAP, High Brightness displays, and more.

## Automotive Grade IA

#### "ROAD READY" FOR *TRADITIONAL* IA PRODUCTS

Sharp Automotive panels are ideal for traditional IA solutions that require extreme viewability in high-ambient or direct light. They also hang tough with rugged shock and vibration specifications.

## Performance Consumer

High-performance consumer LCDs for smartphones and tablet computers are available for largevolume customers with product lines adapted to quick-turn life cycles. Contact your Sharp Representative to determine if your program is a fit.

23.1-inch	LQ231U1LW31*	UXGA   ASV   LVDS   Monochrome

## LCD TECHNOLOGY LEADERSHIP

From high-resolution, energy-saving IGZO displays to Sharp's new Free Form Display, which enables a display in virtually any shape, Sharp continues its role as a display technology trailblazer. We pioneered the concept of Industrial Application (IA) LCDs, and continue to complement our rugged IA specifications with innovative Sharp technology advances.

#### **Progressive Super View (PSV)**

PSV enables direct sunlight viewability with brightness settings as low as 100 nits. Save power, decrease heat from the backlight, and enjoy images free of parallax or metallic appearance.

#### Advanced Super View (ASV)

Delivering 170° × 170° viewing angles, ASV leverages increased contrast to render consistent color and virtually washout-free images, even in dynamic and demanding industrial applications.

#### Memory LCD

This groundbreaking, ultra-low power Sharp LCD technology enables long battery life, high resolution, and lightweight design for wearables and other small-screen applications. Visit SharpMemoryLCD.com for more information.

## WHO'S BEHIND YOUR LCD?

- Global infrastructure
- Strength in manufacturing
- Optimized distribution model
- Sharp Fabs
- Experience in almost every industry
- Long product lifecycles
- U.S.-based Sales and Support
- Peace of mind

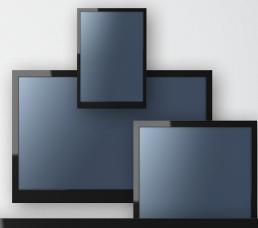

#### When you choose a technology partner, you are investing in more than just a part.

Sharp's global infrastructure enables long product lifecycles. Our warranties mean you can count on us every step of the way.

Plus, our deep engineering resources give you the boost you need to get to market quickly. Sharp technical support includes dedicated experts in your region who are ready for your call.

## Our Industrial Application (IA) displays are backed with Industrial-Strength documentation:

- Incoming Inspection Standards (IIS)
- Full Product Specifications
- Reliability Test Reports
- CAD drawings
- UL Material and Components Parts Lists

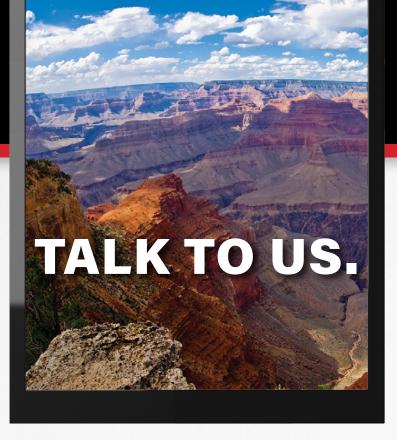

## MAKE IT SHARP.
